### Who We Are

*Solara Technical Sales is an Engineering Value-Added Reseller of Power & Battery Systems. We Define, Design and Furnish solutions for mission-critical equipment that must always be operational. Being vendor agnostic, our focus is always to provide the most cost-effective Power & Battery system for your unique application.*

### Our Partners

#### American Products LLC

American Products LLC is an ISO 9001-2008 certified, high quality manufacturer of Telecommunication equipment cabinets and enclosures including: fiber wall and rack mount enclosures, backhaul and DAS enclosures, active Ethernet cabinets and environmentally controlled modular cabinets and light weight shelters. American Products, LLC specializes in protecting sensitive equipment in difficult environments and offers custom made solutions to meet most any requirement.

#### CE+T

CE+T Power provides innovative solutions in critical power backup and energy management across the world. Specializing in power electronics since the 60s, CE+T Power offers a wide range of products including modular and standalone inverters, modular UPS and multidirectional converters. CE+T Power is active in multiple markets such as Telecom, Datacenter, Transport, Industry, Power & Utilities and Energy Management.

#### Delta Electronics

Delta ensures continuity for our customers' mission critical operations and reduces their total cost of ownership. Our efficient and highly reliable products and services range from uninterruptible power supplies (UPS) and telecom power systems, to our InfraSuite Data Center Infrastructure Solutions.

#### Domestic Power

Domestic Power, a leader in innovative power solutions, delivers reliable, high-performance power systems for critical power applications. The Vega Series platforms provide modular, compact solutions for DC Power, Intelligent Load Distribution and AC backup. Designed for telecom, datacenter, industrial, and utility markets, their solutions ensure efficiency and scalability and their remote management capabilities streamline deployment and lower lifecycle operating costs.

#### Eltek, A Delta Group Company

Eltek develops energy systems for telecom and industrial applications. Leveraging the strength of our global organization and brand, we aim to empower our customers' businesses in more than 100 countries by providing highly efficient power solutions, backed up by an unparalleled commitment to customer service. A strong range of high power-density, flexible and cost-efficient rectifiers/converters form the core of the company's offering for the telecom sector.

#### EnerSys

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Reserve power batteries are marketed and sold principally under the PowerSafe, DataSafe, Hawker, Genesis, ODYSSEY and Northstar brands.

#### Exeltech

A commitment to quality and total customer satisfaction has allowed Exeltech to become innovators in the DC to AC power product market. Their products include the smallest, lightest high frequency PWM sine wave inverter; the first "N+1" redundant inverter systems.

## GS Battery (USA) Inc.

A subsidiary of GS Yuasa Group, the world's second largest battery manufacturer which specializes in lead acid, lithium, and other battery chemistries. In the US, GS Battery's focus is on VRLA products for telecommunication, FTTX, UPS, electrical utility, security, renewable energy, and related markets.

## Hammond

Hammond Manufacturing is a trusted global provider of electrical and electronic enclosures, racks, cabinets, power bars, and low-voltage transformers. Known for their unmatched durability, performance, and product variety, With extensive customization capabilities, technical support, and a commitment to high-quality manufacturing and customer satisfaction, Hammond continues to set the standard in power distribution and enclosure solutions.

## Majorpower

Majorpower is focused on high reliability feature rich power inverters, rectifier systems and converters. They concentrate on the design and manufacture of high quality up-scale solutions to meet a variety of critical power applications worldwide. Their mission is to understand the customer's needs, create power conversion products that deliver solutions and to provide exceptional customer service.

## MPINarada

MPINarada is a leading global manufacturer of both high temperature and pure lead VRLA, as well as 48VDC lithium (LFP) telecommunication batteries with 2VDC, 12VDC, and 48VDC solutions provided. The 48VDC lithium batteries (NPFC Series) provide increased power density while decreasing weight and improving cycling capacity.

## OmniOn Power

OmniOn partners with customers to deliver reliable solutions that power their businesses both today and well into the future. Their expertise and support provide peace of mind as they guide customers through changing industry landscapes. OmniOn Power anticipates their future power needs and collaborates to help ensure their sustained success. With their innovative technology and reliable products, industry expertise, and long-standing strategic partnerships, they're helping customers realize the full potential of 5G and supporting expansive data center demands.

## Plug Power

Plug Power's GenSure fuel cell solutions (formerly known as ReliOn) provide scalable, clean, cost-effective backup power performance while offering an unparalleled degree of flexibility in addressing the space and runtime constraints of customer locations, with both indoor shelter and outdoor cabinet options.

## Samlex

Samlex America is a global leader in power conversion products, best known for their reliable, high-performance DC-AC inverters. Serving industries from telecommunications and public safety to RV, marine, and off-grid applications, Samlex offers a wide range of inverter solutions built for durability and efficiency. With a strong commitment to safety, compliance, and customer support, Samlex continues to be a trusted partner for dependable mobile and remote power needs.

## Stryten

Stryten Energy provides advanced energy storage solutions with a strong focus on reliability and performance. Their Essential Power line delivers dependable stored energy across a range of durations—from one hour to several days—using cutting-edge battery technologies. Proudly built in the U.S.A., Stryten supports critical applications like telecom and transportation with high-quality batteries.

## Trimm, Inc.

Trimm specializes in high-quality DC power distribution panels and accessories designed for reliability, durability, and performance. Serving the communications and data center industries, Trimm offers a broad portfolio including breaker and fuse panels. With nearly a century of expertise, Trimm delivers dependable, standards-driven solutions for both low and high current power distribution needs.
